

## Labsphere Appoints Lothar Voelker as Regional Manager of Europe and Africa

**North Sutton, NH** – Labsphere, Inc., an X-Rite subsidiary and manufacturer of test and measurement equipment for light measurement, sensor calibration, spectroscopy, as well as diffuse reflectance materials, announced it has named Lothar Voelker as Regional Manager of Europe and Africa.

Voelker brings a solid background of sales leadership in the photonics industry to Labsphere. In his new role, Voelker will support Labsphere's strategic initiatives and dealer network in Europe and Africa, bringing with him extensive knowledge of the marketplace, Labsphere product line and key regional partnerships.

"We are all enthused by Lothar's return," said Tim Kardish, Labsphere's President. "This is an important region to Labsphere and Lothar represents our continual desire to invest in key personnel to support both our customers and our dealers in ongoing collaborative relationships."

Voelker returns to Labsphere from Spectra-Physics, where he held the role of European OEM Sales Manager. Voelker will be located in Dreieich, Germany and can be reached at [lvoelker@labsphere.com](mailto:lvoelker@labsphere.com).

### About Labsphere:

Labsphere, a wholly owned subsidiary of X-Rite, Inc., is a global leader in innovative light measurement technology. Products include uniform light sources to calibrate imaging devices and camera systems in the visible and IR; light measurement systems for lasers, LEDs, and traditional light sources; and reflectance standards for calibrating spectroscopic measurement systems. Labsphere also provides systems and components to OEMs in numerous industries, including spectroscopy, laser diode test and measurement, semiconductor, and medical. More information can be found at [www.labsphere.com](http://www.labsphere.com).
